

29D PURETIC POWERBLOCK

29D Hi - Lift Powerblock

Now with 2 speed motor option.

Hydraulic Motor:

B29 Powerblocks are available with 6 sizes of motors including two sizes of 2 speed motors. Haul with high torque or dry up the net at high speed.

Choose a single speed or 2 speed motor. We can size the motor to your hydraulic system based on your requirements for speed or pull. All hydraulic motors are now maritized for longer service life.

Powergrip:

The yoke mounted Powergrip helps keep the net square when hauling, increasing traction and control of the net in rough weather.

Powergrip tire assemblies have galvanized rims for long service life in a saltwater environment and are available in a number of different styles, heights and widths to customize the grip based on your net size and fishery.

Hydraulic Swivel:

Rotate your powerblock 360 degrees. The load bearing hydraulic swivel option allows the powerblock to

easily haul port or starboard without binding the hydraulic hoses.

Bolt in

Cleated

Sheave:

4 different styles of cleats are available to customize your powerblock.

Rubber, Aluminum, Low Profile Polyurethane or High Profile Polyurethane.
