

B19 PURETIC POWERBLOCK

19 Powerblock

Open sideshell design for quick haulback of interrupted sets.

Powerful torque motor.

Rubber coated sheave with molded raised cleats for positive traction.

Available with Powergrip option or plain.

Powergrip

Less net slippage

Less wear - more efficient hauling for longer sheave life and reduced wear on the net.

Helps keep the net square when hauling.

Faster net handling during sets - faster hauling = more sets.

Available for retrofit on existing MARCO or other brands of powerblocks.
