

MINI-CIRCLEMATIC BAITER

Automatically captures and tracks full offset circlehooks

- Designed to bait full offset Circlematic Hooks sizes 5 through 7.
- Ideal system for 40 to 80' vessels fishing 15 - 30,000 hooks per day.
- Latest Circlematic baiting technology provides precision baiting.
- Baits circlehooks at speeds of three to four hooks per second.

Features:

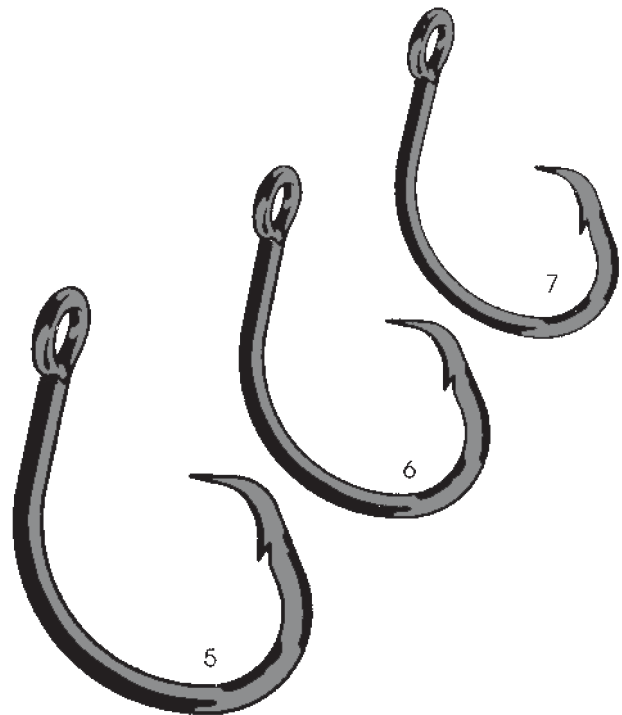

The Mini-Circlematic Baiter was designed specifically to respond to a combination of fisheries that require larger size circlehooks, thus eliminating the traditional labor-intensive hand baiting operation.

The Mini-Circlematic systems are available with a wide range of rack sizes to suit a variety of vessel deck arrangements.

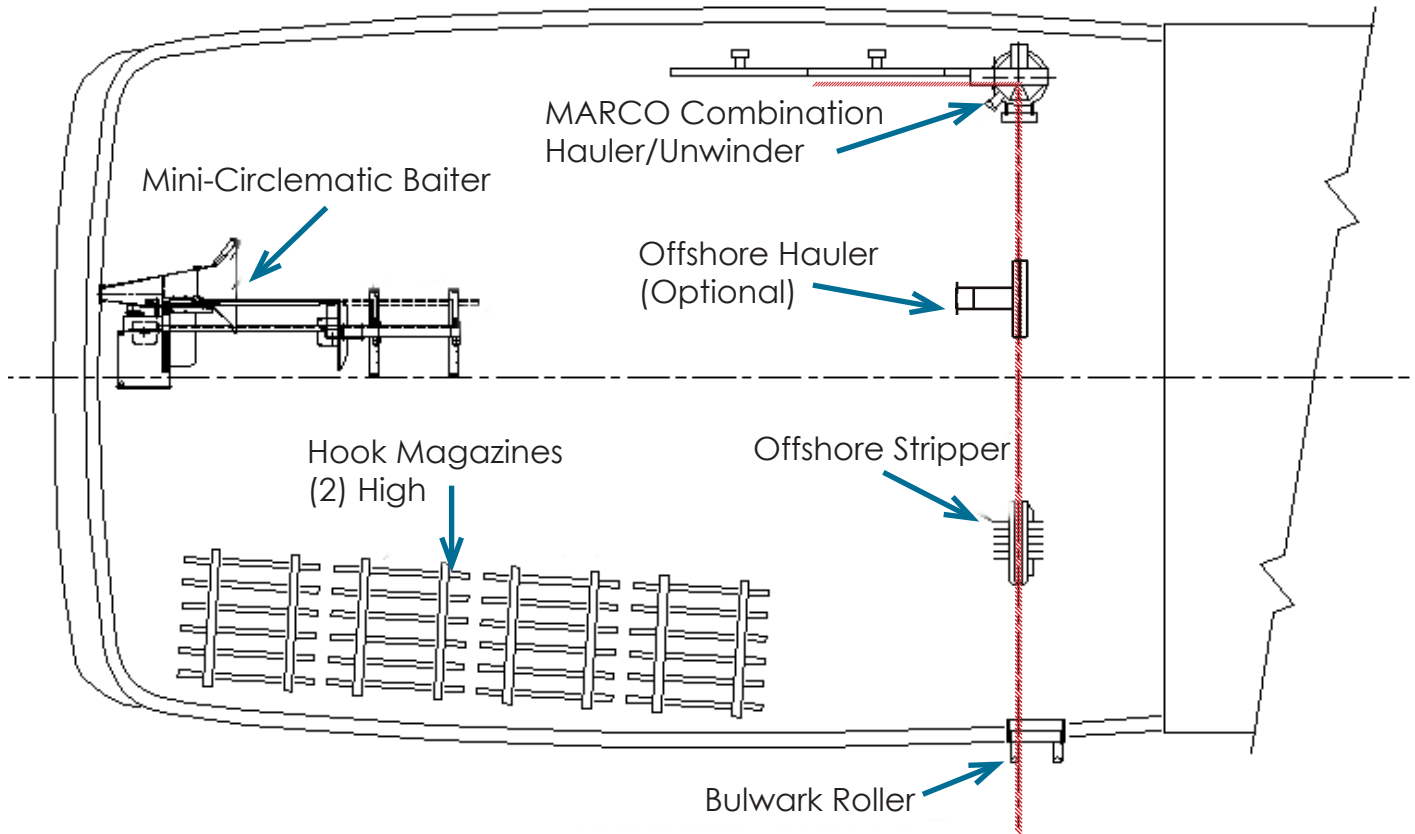

A wide variety of bait lengths are available at the run of a dial to suit the target species.

Rugged, heavy duty construction. Hot Dipped Galvanized stand, stainless steel housing, marine grade controls.

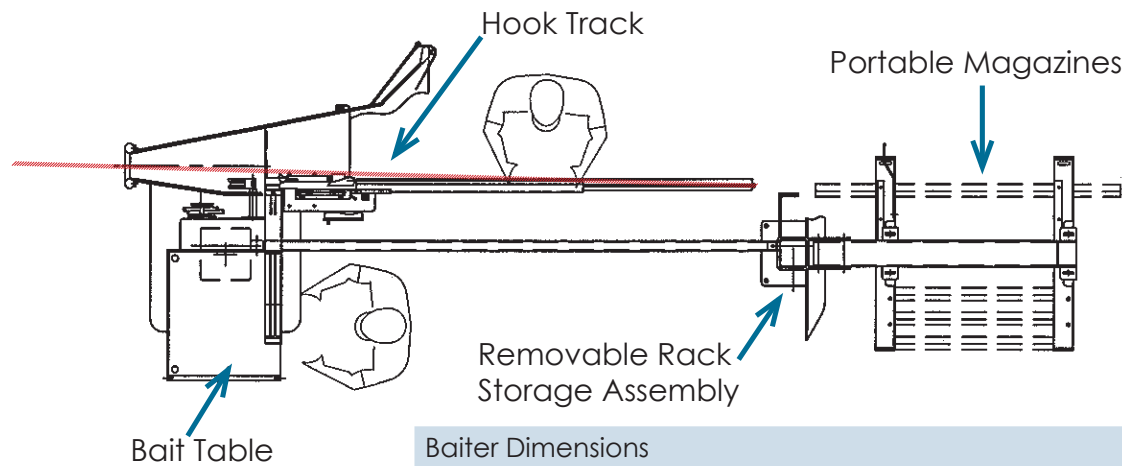

MARCO Quality!
